

INTRODUCTORY COURSE

5 LIVE & INTERACTIVE SESSIONS

- ⌚ Four 90 minute classes.
- ⌚ One special 2 hour class
- ⌚ 8 hours in total over 3 weeks

The focus of this introductory course is to provide you with a solid understanding of how the market ACTUALLY works so you have the confidence to implement a low risk, high profit strategy.

YOU WILL LEARN..

- How to consistently identify and successfully trade the low risk, high probability trades
- How stocks are "supposed to trade" and WHY they trade the way they do
- What short selling is and how to profit from it
- To recognize which stocks are best to AVOID
- How to "listen to the message of the market" objectively
- When level 2 is a useful tool
- Risk management techniques which allow you to maximize your winning trades and minimize the losers
- Emotional management to help avoid "dumb mistakes"
- Why many professionals consider "swing trading" to be the perfect time frame
- Methods to ANTICIPATE price action rather than react to it and much, much more!

At the end of this course you will be armed with a full trading plan which is suited to YOUR personality and the resources to obtain maximum profits! Each live session will have an opportunity to ask questions directly of lead instructor Brian Shannon so that you will truly understand the concepts.
